1. Claims 28-36 are pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the

basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on

sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 28-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Hinoshita et al

(US 3,959,726).

Hinoshita et al discloses a transmission system comprising the following claimed

limitations: "a mapper operable to map a data stream including audio and video information to

an n-level digital mapped signal" (Fig. 4, 26, col. 4, lines 12), "a filter having a VSB

characteristic which covers a frequency band including a carrier frequency- and a roll-off

characteristic said filter being operable to filter the n-level digital mapped signal to produce a

VSB modulated signal" (Fig. 4, blocks 30, 32, 34, Fig. 5D, col. 4, lines 13-29), "a transmitter

operable to transmit the VSB modulated signal" (Fig. 2, stages subsequent to block 34), "said

receiving apparatus comprising a demodulator operable to demodulate the VSB modulated signal

to the data stream including the audio and video information" (Fig. 2, blocks 36-48).

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this

Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
